

Test Report

Project: Click Empire

Version: 1.0

Test Phase: Integration Testing

Date: July 24, 2026

Tester: Vitaly Semchyshyn

Platform: Android

Test Environment

Item	Value
OS	Android 12
Build Type	Debug
IDE	Android Studio
Language	Java 17
Device	Android Emulator (API 31)

Test Summary

Category	Status
Gameplay Integration	Passed
Save / Load	Passed
Achievement & Statistics	Passed
Stability Testing	Passed

Executed Test Scenarios

#	Test Scenario	Result
1	Gameplay (clicking)	Passed
2	Upgrade purchases	Passed
3	Coin economy	Passed
4	Passive income	Passed
5	Achievement unlocking	Passed
6	Statistics update	Passed
7	Save game	Passed
8	Load game	Passed
9	Offline income	Passed
10	Reset Progress	Passed
11	Long-term stability (30 min)	Passed

Test Results

Gameplay:

- Coin balance updated correctly.
- Click power worked as expected.
- Upgraded prices increased correctly.
- Passive income was applied correctly.

Status: Passed

Save / Load:

- Player data was saved successfully.
- Save file was loaded correctly.
- Achievements and upgrades were restored.
- Statistics were restored correctly.

Status: Passed

Achievement System:

- Achievements unlocked under correct conditions.
- Locked achievements remained locked.
- No duplicate unlocks occurred.

Status: Passed

Statistics:

- Click counter updated correctly.
- Purchase counter updated correctly.
- Earned coins were tracked correctly.
- Highest balance was updated correctly.
- Play time increased correctly.

Status: Passed

Offline Income:

- Offline income was calculated correctly.
- Maximum offline time limit was respected.

- Income was added correctly after reopening the application.

Status: Passed

Stability Testing

Manual testing was performed continuously for 30 minutes.

The following checks were completed successfully:

- Continuous clicking
- Upgrade purchases
- Save and load operations
- Offline income
- Achievement unlocking
- Statistics updates
- Reset progress

No crashes, freezes, ANRs, or critical issues were observed.

Status: Passed

Defects Found:

No critical defects were found during integration testing.

Overall Result:

Integration testing was completed successfully.

All planned scenarios passed without critical failures. The application demonstrated stable behaviour, correct business logic, reliable save/load functionality, achievement tracking, and proper statistics management.

Final Status: PASSED.
